MARCH SESSION (ADJOURNED) TUESDAY MARCH 2nd. 1915

IN MATTER OF THE DUN RUN
DITCH NO. 1043

Pursuant to adjournment of Marchlst. 1915, the Board this day convened with all members present, for the purpose of further consideration of said Engineer's Report and Apportionment on file.

There being no written exceptions or claims for damages or compensation for land taken, as except heretofore mentioned, but after some discussion said matter came on as follows:- The Railway Company submitted the following proposition:

Springfield, Ohio, March 1st. 1915.

The Commissioners of Union County,O.

Gentlemen:-

Referring to the matter of Dun's Run Ditch No.1043 petitioned by Guy D.Mitchell et al.

This improvement affects us by the main ditch crossing our right of way at Culvert No.32 necessitating lowering the channel and by the Wolfe Branch crossing our right of way at Culvert No.35 requiring the cleaning out of the channel for which we have been assessed to the amount of the estimated cost of carrying the improvement across our right away.

Since the meeting held Feb. 20th which was for hearing objections to the improvement , we have gone over the entire situation very thoroughly and come to the conclusion that we will agree to take care of the expense of the ditch improvements on our right of way as shown by the plans at present on file in the County Engineer's Office, namely , lowering the channel at Culvert No.32 approximately two feet and cleaning out the present ditch at Culvert No.35, doing the work with our own forces to the satisfaction of the County Commissioners or party designated by them, providing the Board of County Commissioners agree to relaase the C.C.C. & St.L. Ry. Co., from assessments on both improvements and not show the name of the Railway Company on the assessment roll. The Railway Company to start work when the ditch improvement is carried to the Company right of way on the down stream side of said right of way. While the expense of lowering the waterway under Culvert No.32 will be much greater than the amount estimated on the tentative assessment roll, nevertheless, the Railway Company feel that they are better equipped to handle the work with their own forces, than the County or a contractor would be, and also consider it safer for the operation of the railroad to handle the work themselves. In agreeing to take care of the work on the railroad right of way, we do not lose sight of the fact that under the law we would be entitled to substantial damages on account of the ditch improvement.

If the foregoing meets with the approval of the Commissioners, kindly signify that approval in writing. We will then be prepared to proceed with our part of the work when called on.

A motion was made by Mr. Diehl seconded by Mr. Reeley that we release the C.C.C. & St.L. Ry. Co. of their assessment of $281.65 , provided they furnish the material and do all the work across their right of way according to specifications and under the direction of the County Surveyor, on roll call each member voted as follows: Rausch "Aye", Diehl "Aye", Reeley "Aye".

IN MATTER OF RESOLUTION
REGARDING DISTRIBUTION OF
COUNTY'sPORTION OF
STATE HIGHWAY FUND.

Marysville,Ohio,January 10th,1916.

WHEREAS, much of the public highway in Union County,Ohio, is in need of immediate repair and reconstruction to put it in reasonably credible and serviceable condition,and,

WHEREAS,the funds available are limited to an amount that is wholly inadequate, owing to the method of application by the State Highway Department of the County's portion of the fund raised by the levy of three-tenths of one mill on all the taxable property of the State, and the portion of the automobile fund credited to the County,and,

WHEREAS, much criticism of the method of application of said funds by the State Highway Department has been made by our citizens;

THEREFORE BE IT RESOLVED, That we, the Board of Commissioners of Union County, Ohio, are unalterably opposed to the plan proposed by the State Highway Department for the expenditure of said funds which are due the County as its equitable portion for the year 1916,and,

BE IT FURTHER RESOLVED,For the just benefit of a large portion of our citizenship whose necessities compel them to travel much of the public highway which is not designated as Inter-County and Main Market roads, we are opposed to the present method of collection and distribution of the automobile fund of the State and believe should be collected thru the County officials of each County of the State and be credited to the credit of the highway repair fund in each County, in order that it might be more equitable distributed thruout each County and used in the repair of all the public highways instead of following the present method of the State Highway Department in expending the entire sum in building from one to two mile of highway in each County, at an extremely high cost, which usually represents about one-tenth of one percent of the public highways in the County,and,

BE IT FURTHER RESOLVED, That we are opposed to the provision of the present law which provides for a levy on all the taxable property of the State for the construction of roads other than Main Market Roads, and,

BE IT FURTHER RESOLVED,That we are in favor of all levies which may be made for th the construction of Inter-County and other highways, other than Main Market Roads, being made by the County authorities of each County and such funds shall be paid into the Treasury of each County to the credit of the road fund; and,

BE IT FURTHER RESOLVED,That we will use our influence to bring about a correction of our road law as it now stands upon our statute books, in the particulars herein set forth in order that the general public may derive a greater benefit from the vast sum of money which it nows pays into the State Treasury and which is now expended by the State Highway Department on an exceedingly limited mileage of highways in the State which is done at exorbitant contract prices.

I desire,hereby to make requisition for a covering for the floor of the office of the County Board of Education,as the linoleum on it is at present in a very bad condition. IN THE MA TTER OF CLOSING THE URBANA-MARYSVILLE INTER-COUNTY HIGHWAY NO.191 BY STATE HIGHWAY SUPERINTENDENT.

Columbus,Ohio,June 7th.1916.

Commissioners of Union County,Ohio
Marysville,Ohio.

Gentlemen:-

In order to permit satisfactory and proper construction of the improvement of Section "E" of the Urbana-Marysville Road I.C.H.# 191,Union County,it will be necessary to close portions of said road where the contractor is working.

It is practically impossible for the contractor to prosecute work of this class to any advantage or to obtain the best reaults when the public travel is permitted to go over it.

I hereby certify that it will be necessary to close this road in order to properly complete this work. The law provides that "not more than one mile of any highway shall be closed at any one time" and the limits on the closed parts should be changed to suit the progress of the work.

I request that you take the steps necessary to close this road as provided under Section 1226 of the General Code of Ohio as amended.

Yours very Truly,

Clinton Cowen,
State Highway Commissioner.
