Auditor's Office, Union County, Ohio,
Marysville, Ohio, November 8th, 1911.

In the matter of the Finding
on petition of the Union
Ditch Number 991.
Petitioned for by David McCloud.

This day the Commissioers of Union County, Ohio, met in special session, members present, Charles Rausch, G. W. Cowgill and Charles Diehl, and a copy of a petition for the location and construction of a county ditch having been delivered to us by the county Auditor, and it appearing to us that the proper bond has been filed with the Auditor and by him approved, conditioned for the payment of all costs, if the prayer of the petition be not granted or be dismissed for any cause, we therefore on the 8th day November 1911, the day fixed by the Auditor for hearings, did meet at the place of beginning of said ditch, as described in the petition , and heard all proff offered by an of the parties affected by said improvement and other persons competent to testify; and we went over and along the line of said improvement, and by actuela view of the said premises along and adjacent thereto and to be drained or benefitted thereby, determined the necessity thereof.

And we do further find that said improvement is necessary and will be conducive to the public health, convenience and welfare, and a benefit to the lots and lands along the line thereof by furnishing drainage thereto.

And we further find described in the petition is the best and was determined upon by us as follows;- Commencing at the outlet of a twelve inch tile on the lands of David McCloud and near the lands of Ira Smith Heirs and about ten rods north of the P. C. C. C. & St . L. R. R. and being the outlet of the McCloud ditch No. 482; thence running in a northerly direction about 100 rods to the Milford Cneter and Unionville Gravel Road; thence crossing said road and on the lands of Edward Kleiber about ten rods to Big Darby Creek and there to terminate. We also also decide that this improvement be made of tile of sufficient capacity to carry of the water at all ordinary stages of rainf fall and make a good outlet for the lands to be drained therein..

We also find that due and legal notice has been given to each person or corporation benefitted or affected by said proposed improvement.

And we do hereby order the Auditor to enter this, our finding in writing, on the Commissioners Journal. And we do further authorize the ~~Auditor~~ Auditor to enter upon said Journal an order directing the County Surveyor to go upon the line as described in t the petition, and survey and level the same and ~~s~~ the necessary staked, and to embody in said order direction to said Surveyor to make and return a schedule of all lots or lands and public or corporate roads or railroads, that will be benefitted, and an apportionment of the estimated cost of locating and constructing said improvement, in money, according to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the county Auditor on or before the time hereinafter fixed for the hearing of the same.

It is further ordered that the 2nd. day of December A. D. 1911, at one o'clock P. IN MATTER OF THE
YORK DITCH NO. 993 (Commissioners' Finding)
Petitioned by H.E.Southard

This day the Commissioners of Union County, being in special session, members present, Chas. Rausch, G.W. Cowgill, and a copy of a petition for the location and construction of a county ditch having been delivered to us by the County Auditor, and it appearing to us that the proper bond has been filed with the Auditor, and by him approved , conditioned for the payment of all costs if the prayer of the petition be not granted or dismissed for any cause, we therefore, on the 21st day of November, 1911, the day fixed by the Auditor for hearings, did meet at the place of beginning of said ditch, as described in the petition, and heard all proof offered by any of the parties affected by said improvement and other persons competent to testify; and we went over and along the line of said improvement, and by actual view of the said ditch and the premises along and adjacent thereto and to be drained or benefitted thereby, determined the necessity therof.

And we do hereby find that said improvement is necessary , and will be conducive to the public health, convenience and welfare, and a benefit to the lots and lands along the line thereof by furnishing drainage thereto.

And we further find that the route described in petition is the best and was determined upon by us as follows:-

Commencing at a stake in a basin on the lands of H.E. Southard, thence in a northeasterly course across said lands and on to the lands of Blanche Southard to an open ditch; thence following the line of said open ditch in an easterly course across said lands to the Byhalia and West Mansfield Gravel Road and on to the lands of Almira Huffman and the lands of Inez Cook to an open ditch. Also the lateral commencing on the lands of H. E. Southard thence in a northernly course across said lands and onto the lands of Hester A. McDonald, thence in a northernly course across said lands and the lands of Blanche Southard to the main ditch. We also decide that this improvement be made of tile of sufficient capacity to carry off the water at all ordinary stages of rainfall and make a good outlet for the lands to be drained therein.

We also find that due and legal notice has been given to each person or corporation benefited or affected by said proposed improvement.

And we do hereby order the Auditor to enter this, our finding, in writing, on the Commissioners' Journal. And we do further authorize the Auditor to enter upon said journal an order directing the County Surveyor to go upon the line as described in the petition , and survey and level the same and set the necessary stakes, and to embody in said order direction to the said surveyor to make and return a schedule of all lots or lands and public or corporate roads or railroads, that will be benefited, and an apportionment of the estimated cost of locating and constructing said improvement, in money, according to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the County Auditor on or before the time hereinafter fixed for hearing the same. It is further ordered that the 16th day of December A.D. 1911, at one o'clock P.M., at the County Commissioners office, is hereby fixed for the hearing of applications for any appropriations of land taken for said improvement and damages said parties affected by said improvement, or any of them may sustain thereby, and for the approval of the report of the Surveyor.

On motion duly seconded Board adjourned to Monday November 27, 1911.

Cleveland, Ohio. November 27, 1911

Proposed Cameron Ditch, No.968, Claibourne Twp.., Union County, Ohio.

Board of County Commissioners, Union County,
Marysville, Ohio.

Gentlemen:

Refering to the proposition made by you to this company of reducing the assessment made against it, from $302.50 to $146.00, in connection with the above entitled ditch proceeding:- I have referred the matter to the General Superintendent of this Company with my recommendations and am now in receipt of advice from him that in view of all the circumstances, the company will accept same. In accepting this assessment the company, however feels that it is excessive and was not made in accordance with benefits as required by law.

(Continued to Page 26)

In matter of Cameron ditch - continued

The company further feels that its land should be treated in the same manner as the land of other interested property owners in the matter of making assessments against it. The fact that the land is owned by a railroad company is no reason why it should be assessed greater than the land adjoining property owners. As a matter of fact where the ditch is petitioned for by farm owners desiring to improve their land for farming purposes is some reason why their assessment should be greater than that of a railroad company whose right of way does not require the drainage in question and any benefits accruing to it can only be based upon a theoretical assumption which is not justified by statute.

I appreciate the pleasant relations between the officials of Union County and this company and my desire to have this matter adjusted without litigation was due in a great measure to same, as well as to the friendly desire on your part to reach an amicable adjustmant.

Appreciating your efforts in this line and desiring a continuance of our friendly relations, I remain,

Yours very truly,

H.W. Minihew
Land and Tax Agent.

A motion by Diehl and seconded by Rausch that the engineer's report in sadd matter be amended by decreasing the assessment the Nypano Railroad, Erie Railroad. Lessee, $156.25 which amount is to follow the territory assessed except the said railroad company.

Result of vote is as follows, Chas. Rausch, "Aye", Chas. Diehl, "Aye", motion carried, and the Board unanimously adopted the Engineer's report in matter ofesaid ditch as amended.

On motion duly seconded the Board adjourned to Monday December 4th. 1911.

SPECIAL SESSION THURSDAY DECEMBER 7th. 1911

Auditor's Office, Union Co.O.
Marysville, O. Dec. 7, 1911

IN MATTER OF THE (Commissioners' Finding)
LASH DITCH NO.994.

This day the Commissioners of Union County, being in special session, members present, Chas. Rausch, G.W. Cowgill, Chas. Diehl, and a copy of a petition for the location and construction of a county ditch having been filed with the County Auditor, and by him approved, conditioned for the payment of all costs if the prayer of the petition be not granted or be dismissed for any cause, we therefore, on the 7 day of December 1911, the day fixed by the Auditor for hearings, did meet at the place of beginning of said ditch, as described in the petition, and heard all proof offered by any of the parties affected by said improvement and other persons competent to testify; and went over and along the line of said improvement, and by actual view of the said ditch and the premises along and adjacent thereto and to be drained or benefitted thereby, determined the necessity thereof.

And we do hereby find that said improvement is necessary, and will be conducive to the public health, convenience and welfare, and a to the lots and lands along the line thereof by furnishing drainage thereto.

And we further find that the route described in the petition is the best and was determined upon by us as follows:-

Commencing at a stake near the line between the lands of Isaac Connor and Addison Turner in Liberty Township; thence in a southeasterly course through the lands of said Turner, crossing an unimproved road and through the lands of Zina Beecher, Geo. D. Leadbetter, Chas.Lash, Henry Shirk and Mary J.Fry to the Stierhoff Ditch.

We also decide that this improvement be made of tile sufficient capacity to carry off the water at all ordinary stages of rainfall and make a good outlet for the lands to be drained therein.

We also find that due and legal notice has been given to each person or corporation benefitted or affected by said improvement.

And we do hereby order the Auditor to enter this, our finding, in writing on the Commissionres' Journal. And we do further authorize the Audiotr to enter upon said journal an order directing the County Surveyor to go upon the line as described in the petition and survey and level the same and set the necessary stakes, and to embody in said order direction to the said surveyor to make and return a schedule of all lots or lands, and public or corporate roads or railroads, that will be benefited , and an apportionment of the estimated cost of locating and constructing said improvement, in money, according to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the County Auditor on or before the time hereinafter fixed for hearing the same. It is further ordered that Monday January 8th. 1912 at the Commissioners office at 1 P.M. is hereby fixed for the hearing of applications for any appropriations of land taken for said improvement and damages said parties affected by said improvement, or any of them may sustain thereby, and for the approval of the report of the Surveyor.

IN MATTER OF THE
TURNER DITCH NO. 1001

Pursuant to adjournment of January 2nd. 1912, the Board of County Commissioners met in special session, Members present, Chas. Rausch, Chas. Diehl, and a copy of a petition for the location and construction of a county ditch having been delivered to us by the County Auditor, and it appearing to us that the proper bond has been filed with the Auditor, and by him approved, conditioned for payment of all costs if the prayer of the petition be not granted or dismissed for any cause, we therefore, on the 27th. day of January 1912, the day fixed by the Auditor for hearings, did meet at the place of the beginning of said ditch, as described in the petition, and heard all proofs offered by any affected by said improvement, and other persons competent to testify; and went over and along the line of said improvement, and by actual view of the said ditch and the premises along and adjacent thereto and to be drained or benefitted thereby, determined the necessity thereof, and we do find that said improvement is necessary, and will be conducive to the public health, convenience and welfare and a benefit to the lots and lands along the line thereof by furnishing drainage thereto.

And we further find the route described in the petition is the best and was determined upon by us as follows;

Commencing at a stake in the line between the lands of J.H. Trimbie and Richard Turner and in the line of a tile ditch; thence following the line of said ditch or near thereto across said lands and the lands of Solomon Turner to an open ditch; thence with said open ditch or near thereto across said lands and the lands of John M. Knotts to and across the Marysville and Kenton Gravel Road. We also decide that this improvement be made of tile sufficient capacity to carry off the water at all ordinary stages of rainfall and make a good outlet for the lands drained therein. Improvement granted with tile to near R.L.Woodburn land or far enough down, thence with a open ditch sufficient outlet.

We also find that due and legal notice has been given to each person or corporation benefitted or affected by said improvement.

And we hereby order order the Auditor to enter this our finding, in writing on the Commissioners Journal. And we do further authorize the Auditor to enter upon said journal an order directing the County Surveyor to go on the line as described in the petition, and survey and level the same and set necessary stakes, and to embody in said order direction to the said Surveyor to make and return a schedule of all lots and lands, and public or corporate roads or railroads that will be benefited, and an apportionment of the estimated cost of locating and constructing said improvement, in money, according to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the County Auditor on or the time hereinafter fixed for hearding the same. It is further ordered that February 19th. 1912, at 10 A.M. at the Commissioners Office, is hereby fixed for hearing of applications for any appropriations of land taken for said improvement and damages said parties affected by said improvement or any of them may sustain thereby, and for the approval of the report of the Surveyor of said matter.

SPECIAL SESSION TUESDAY MARCH 12, 1912

Auditor's Office, Union County, Ohio.
Marysville, Ohio, March 12, 1912.

IN THE MATTER OF THE
GRIFFITH DITCH NO.1005
Petitioned for by T.F.Griffith.

Pursuant to adjournment of February 19th 1912, the Board of County Commissioners of Union County, met in special session, members present, Chas. Rausch, Chas. Diehl and G.W. Cowgill, and a copy of a petition for the location and construction of county ditch having been delivered to us by the Auditor, and it appearing to us that the proper bond has been filed with the County Auditor, and by him approved, conditioned for the payment of all costs if the prayer of the petition be not granted or dismissed for any cause, we therefore on the 12th day of March 1912 at 10 A.M. did meet at the place of the beginning of said ditch as described in the petition, and heard all proofs offered by any affected by said improvement, and other persons competent to testify; and went over and along the line of said improvement , and by actual view of said ditch and the premises along and adjacent thereto and to be drained or benefitted thereby, determined the necessity thereof, and we do find that said improvement is necessary, and will be conducive the public health convenience and welfare and a benefit to the lots and lands along the line thereof by furnishing drainage thereto.

And we do find thetroute described in the petition is the best and was determined by us as follows:

Commencing at a stake in a basin on the lands of Nora Kleiber; thence in a westerly course, following the natural water course across the said lands of Thos. F. Griffith, Robt. H. Keys, and on to the lands of A.A. Boylan about 50 rods to a lane; We also decide that this ditch be made of tile sufficient capacity to carry off the water at all ordinary stages of rainfall and make a good outlet for the lands therein.

We also find that due and legal notice has been given to each person or corporation benefitted or affected by said proposed improvement.

And we do hereby order the Auditor to enter this our finding in writing on the Commissioners Journal. And we do further authorize the Auditor to enter upon said Journal an order directing the County Surveyor to go on the line as described in the petition and survey and level the same and set the necessary stakes, and to embody in said order direction to the said surveyor to make and return a schedule of all lots or lands and public or corporate roads or railroads, that will be benefitted , and an apportionment of the estimated cost of locating and constructing said ditch in money, according to the benefits which will result to each, and to perform such other duties as are required, and and to file his report with the County Auditor on or before the time hereinafter fixed for hearing the same. SPECIAL SESSION TUESDAY MAY 14th. 1912.

Auditor's Office, Union County, Ohio.
Marysville, Ohio, May 14th. 1912.

IN MATTER OF THE
CAHILL DITCH NO.1006 (Commissioners Finding)
Petitioned by H.J. Cahill et al York Twp.

Pursuant to adjournment of April 22nd. 1912, the Board of County Commissioners met in special session, members present, Chas. Rausch, Chas. Diehl and G.W. Cowgill, and a copy of a petition for the location and construction of a county ditch having been delivered to us by the County Auditor, and it appearing to us that the proper bond has been filed with the Auditor , and by him approved, conditioned for payment of all costs if the prayer of the petition be not granted or dismissed for any cause, we therefore on the 14th day of May 1912 at 10 o'clock A.M. , the day fixed by the County Auditor for hearings, did meet at the place of the beginning of said ditch as described in the petition, and heard all proofs offered by any affected by said improvement or benefited thereby, determined the necessity thereof, and we do find that said improvement is necessary, and will be conducive to the public health, convenience and welfare and a benefit to the lots and lands along the line thereof by furnishing drainage thereto, and we further find the route described in the petition is the best and was determined upon by us as follows:

Commencing at the junction of two open ditches on the lands of H.J. Cahill and about 800 feet west of the Newton and York Center Gravel Road; thence in an easterly direction with the line of the old open ditch through the lands of said Cahill and crossing the said Newton and York Center Gravel Road, and through lands of Seneca Stalder about 800 ft. to the Powder Lick Run Ditch; also decide that this improvement be made of tile of sufficient capacity to carry off the water at all ordinary stages of rainfall, to the Powder Lick Run Ditch, and if necessary, clean out and deepen the said Powder Lick Run Ditch far enough to give a sufficient outlet for said proposed tile improvement. On motion of Mr. Diehl seconded by Cowgill that said proposed improvement be granted as asked for in the petition, on roll call the vote resulted as follows; Rausch "Aye", Diehl "Aye", G.W. Cowgill "Aye" . Motion carried. We also find that due and legal notice has been given to each person or corporation affected by said improvement.

And we do hereby order the Auditor to enter this our finding in writing on the Commissioners Journal, and we do further authorize the Auditor to enter upon said journal an order directing the County Surveyor to go on the line as described in the petition and survey and level the same and set necessary stakes , and to embody in said order direction to the said surveyor to make and return a schedule of all lots or lands, and public or corporate roads or railroads that will be benefited, and an apportionment of the estimated cost of locating and constructing said improvement, in money, accoring to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the County Auditor on or before the time hereinafter fixed for hearing the same.

It is further ordered that Monday September 2nd. 1912 at 1 P.M. at the Commissioners Office is hereby fixed for the hearing applications for any appropriations of land taken for said improvement and damages said parties affected by said improvement or any of them may sustain thereby, and for the approval of the report of the Surveyor in said Matter.

IN MATTER OF THE
LIBERTY DITCH NO.1009
Petitioned for by F.L.Baldwin

Pursuant to adjournment of July 29th. 1912, the Board of County Commissioners met in special session, members present, Chas. Rausch, Chas. Diehl, and G.W. Cowgill, and a copy of a petition for the location and construction of a county ditch having been delivered to us by the County Auditor , and it appearing to us that the proper bond has been filed with the Auditor , and by him approved, conditioned for payment of all costs if the prayer of the petition be not granted or dismissed for any cause, we therefore on the 14th day of August 1912, at 10 o'clock A.M., the day fixed by the County Auditor for hearings, did meet at the place of the beginning of said ditch as described in the petition, and heard all proofs offered by any affected by said improvement or benefitted thereby, determined the necessity thereof, and we do find that said improvement is necessary and will be conducive to the public health, convenience and welfare and a benefit to the lots and lands along the line thereof, by furnishing drainage thereto, and we do further find the route described in the petition is the best, and was determined upon by us as follows: Commencing at a point on the John Shirk farm about 20rods from his west line and on the south side of the Shirk Gravel Road; thence following the natural water-course through the lands of John Shirk, F.L. Baldwin and Alonzo Turner, finding an outlet into Otter Run on the Turner farm; also for the necessary laterals, and that the tile used be of sufficient capacity to properly drain the land drained therein.

We also find that due and legal notice has been given to each person or corporation affected by said improvement.

And we do hereby order the Auditor to enter this our finding in writing on the Commissioners Journal, and we do further authorize the Auditor to enter upon said Journal an order directing the County Surveyor to go on the line as described in the petition and survey and level the same and set necessary stakes, and to embody in said order directionto the said Surveyor to make and return a schedule of all lots or lands , and public or corporate roads or railroads that will be benefitted, and an apportionment of the estimated cost of locating and constructing said improvement, in money, according to the benefits which will result to each, and to perform such other duties as are required, and to file his report with the County Auditor on or before the time hereinafter fixed for hearings the same.

It is further ordered that Monday October 28th 1912 at 1 o'clock P.M. at the Commissioners Office is hereby fixed for the hearing of applications for any appropriations of land taken for said improvement and damages said parties affected by said improvement or any of them may sustain thereby, and for the approval of the report of the Surveyor in said matter by said Board of Commissioners.

This 1st day of March A.D. 1913, we the said Commissioners, met at the Commissioners Office, Marysville, Ohio, pursuant to adjournment:

J.H. Baughman, J.K. Norris and J.S. Rogers, having acknowledged service of notice in said Gilcrist Ditch No. 1026, and after hearing all proof offered by any of the parties affeeted by said improvement to testify in reference thereto;

We find that the route described is not best; and the following route was determined upon by us, viz:- Commencing at the outlet of a 10 inch tile on the lands of F.W. Jewell and near the line between the townships of Dover and Paris; Thence following the line of an open ditch or near thereto in a northeasterly course across said Jewell's lands and the lands of George M. Taylor , crossing onto the lands of F.M. Gilcrist and continueing with said open ditch or near thereto in a northerly course crossing said Gilcrist's lands and the lands of J.H. Baughman to the south line of the lands of J.K. Norris; thence onto the the lands of said Norris with an open ditch far enough to secure a good and sufficient outlet, also such laterals as are requested and are necessary, and also inlets and a concrete header at the outlet.

We find that the improvement as above descrided is necessary and will be conducive to the public health, convenience and welfare and a benefit to the lots and lands along the line thereof by furnishing drainage thereto.

IN MATTER OF THE INSPECTION
OF THE BRIDGEPORT BRIDGE

Pursuant to orders of this Board of May 19th. 1913, John R. Chamberlain, Bridge Engineer of the State Highway Department, inspected the Bridgeport Bridge, May 26 , 1913, and submitted the following report :-

Columbus, Ohio, May 27th. 1913.

Mr. W.P. Beightler,
Martsville, Ohio,

Dear Sir:-

We are in receipt of yours of May 20th requesting our Engineer of Bridges to examine and report on the condition of bridge over Big Darby at Bridgeport and, in reply, beg to say that we have been to the site of the Bridge and find both the sub-structure and the super-structure considerably damaged. The masonry abutments have failed completely and and the wooden truss, while the timber is in fair condition, has been considerably racked by flood and its stability is uncertain. It is plainly necessary that new abutments should be built and while it is possible to make repairs to the wooden superstructure, it seems to me inadvisable for the following reasons.

(1) To maintain the present structure would mean rebuilding the abutments on their location, thereby preventing increasing the opening, which seems quite desirable.

(2) The structure at best would not have the capacity for heavy loads which a bridge in that location and in this age should have.

(3) The structure even after such repairs would not be as stable as before.

(4) The uncertainty as to its strength which is an important item when the liability of accidents, possibly resulting in the loss of life, is considered.

I,therefore, recommend rebuilding the entire structure and suggest that the opening be increased both by lengthening the bridge from 10 to 25 % and raising not less than 2'.

I recommend that comparative estimates be made for one and two spans, and also that a change in location be considered with the idea of improving the alignment of the road, at the same time getting some advantage by throwing the road further away from Buck Run which appears to be scouring into the road at the northwest wing of the present structure.

The above general recommendation are all that I think your Board desires. Should they desire more detailed recommendations as to length of span, type, etc., please advise.

Respectfully Submitted

JAMES R. MARKER,
State Highway Commissioner.

IN MATTER OF OPINION OF PROSECUTOR ON BILL OF D.B. Edwards

A motion was Mr Diehl seconded by Mr. Reeley (each member voting "Aye" on roll call) that the Clerk is hereby instructed to copy upon our Journal the Opinion of the Prosecuting Attorney pertaining to the bill of D.B. Edwards for $302.45, which is as follows:

Marysville, Ohio, November 16th. 1914.

The Board of County Commissioners,
Marysville, Ohio.

Gentlemen:-

Under recent date you requested my opinion as to the bill of Dwight B. Edwards of $302.45 with interest thereon based upon the finding of the Bureau of inspection and Supervisions of Public Offices filed with the County Auditor June 2" 1913.

This finding is based upon a decision of the Supreme Court of Ohio, vis: Will R. Lewis, Treas. vs State of Ohio ex rel. S.A. Stilwell.

The payment of this bill presents the question of the application of the Statute of Limitations.

It is well settled that the Statute of Limitation may be employed as a defense against a claim in behalf of Counties, townships and municipalities.

8 Encyc. Digest of Ohio Reports, Page 850.
Oxford Township vs Columbia 38 O.S. 87
State vs Blake 2 O.S. 148
Williams vs 1st Presbyterian Society, Cin. 1 O.S. 478

From Page 464

IN MATTER OF BILL OF D.B. EDWARDS

Section 11222, General Code, Provides as follows:

"An action upon a contract not in writing, express or implied, or upon a liability created by statute other than a forfeiture or penalty, shall be brought within six years after the cause thereof accrued."

The claims under consideration in the present case are claims for money had and received, and therefore, come within the terms of Section 11222, General Code, as implied on contracts.

Mount vs Lakeman 21 O.S. 643
Commissioners vs McClure 7 O.N. 187
Hartman vs Hunter 56 O.S. 175

In conclusion, therefore, I am of the opinion that whatever claims may be shown, by a re-apportionment of the precentages, to have been due to or owed by the county by reason of said decision of the Supreme Court, are now all barred by reason of lapse of time.

Yours very truly,

Signed: John H. Willis,
Prosecuting Attorney of
Union County, Ohio.

A motion was made by Mr. Reeley seconded by Mr. Diehl that the said bill of D.B. Edwards, dated August 1st. 1913 and filed August 11th. 1913, Docket No.4036, for $488.81 be not allowed and is hereby rejected, said bill not being presented within the time as fixed by Statute, on roll call each member voted as follows: Rausch "Aye", Diehl "Aye", Reeley "Aye".
