

# How to search Garner

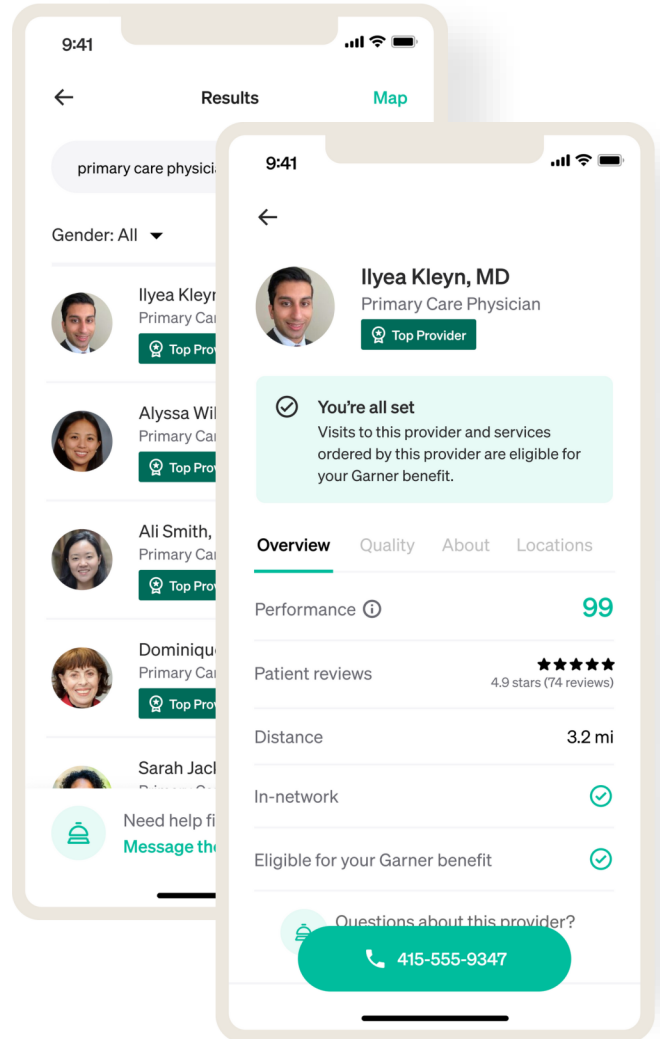

Garner makes it easy to find Top Providers with availability by a specific symptom, condition, procedure, specialty or name.

## How to search

1. Search for a Top Provider by specialty, symptom, procedure, condition or name.
2. Garner will return all nearby in-network Top Providers with availability.\*
3. Doctors with a Top Provider badge or a green “You’re all set” profile banner are eligible for reimbursement. There is no need to let your Concierge know you plan to see them.

## Look for the Top Provider badge

- Top Providers will have a green Top Provider badge on the search results and profile pages.
- Doctors with a green Top Provider badge are automatically associated with your profile.
- Services provided or ordered by a Top Provider will be eligible for reimbursement on or after the date the provider is associated with your profile.

**Garner has no financial relationships with doctors. Recommendations are based solely on independent analysis, not commissions or fees.**

*\*We try our best to only recommend providers that are in-network with your insurance, but since insurance companies change their networks on a regular basis, we always recommend verifying that a provider is still in-network with your plan on or before the day of service. We also encourage you to confirm that all of the services (e.g., procedures, tests) are covered by your insurance. Your Garner benefit won't cover out-of-network costs.*
