VuSpex GO – Offline Field Report Instructions

Propane Purveyor Installation

The Union County Building Department now offers contractors the ability to complete select inspections virtually through **VuSpex GO Offline Field Reports**. This option allows you to document your installation without scheduling an in-person inspection.

The intent of utilizing VuSpex Offline Field Reports for inspections is to facilitate the inspection of the elements of the product installed before the installing contractor exits the jobsite, thereby eliminating or minimizing further inconveniences to the property owner or occupant of the structure associated with State mandated code compliance inspections.

Please follow the instructions in the [VuSpex Go Guide Informational Packet](#) to download and use the VuSpex GO app.

VuSpex GO Offline Field Report Information

You do not need to schedule an inspection prior to submitting an Offline Field Report

Once you have downloaded VuSpex Go, refer to the “Checklist of Required Photos” below to upload necessary photos for review. **Location services must be turned on for the device used in the inspection. You must take the photos at the installation on site for location verification.** Failure to do so will result in a failed inspection. Once the photos are uploaded into VuSpex Go while at the work site, you may submit the Offline Field Report at any location with a good cell signal.

Checklist of Required Photos:

Propane Installation:

- Address of installation
- Company name and phone number
- Tank information
 - o Aboveground or underground
 - o Number of anode bags (if applicable)
 - o Size of tank
 - o Identification number
 - o Setback from structures and property lines
- Gas line
 - o Depth
 - o Length
 - o Tracer wire installed (if applicable)
- Pressure test for gas line
 - o Pounds and duration

Inspection Results:

The Building Department will review your submission, and inspection results will be documented in OpenGov shortly following your submittal.

Important Notes

- Submissions must meet all code requirements.
- Incomplete or unclear reports will delay approval.
- The Building Department reserves the right to require an in-person or live virtual inspection if needed.
